Alternate contact person

- Title/Name: Mr./ Ms. Mr. George Berulava,

- Position: Deputy Director (Project manager), Founder Board Member of the RCT/EMPATHY, Georgia

- E-mail: centre@empathy.ge g_berulava@yahoo.com

6. **Results achieved in terms of assistance to victims:**

- Victims of torture were participated in program activities and received a high level of professional care as well as a feeling of security that they have a safe place to turn for care.
- The standardized diagnostic system which is developed in this program for identification, documentation and rehabilitation of torture victims and their family members is successfully operating.
- The international standards according to the Istanbul Protocol for medical and psychological expertise of victims of torture are set up and developed in Georgia that EMPATHY and PRI can promote for duplication in other NIS countries.
- This program is provide a model for rehabilitation and treatment of victims of torture that EMPATHY and PRI can promote for duplication in other NIS countries.
- The program was provide opportunities for positive change on the policy level, including providing capacity to the Ministry of Health to include victims of torture in its program design for the future (through cooperation with this NGO) and helping to build the capacity of the Ministry of Justice and its departments to accurately identify and track victims of torture in its system, as well as to train prison personnel and other officials how to treat victims of torture and all prisoners or detainees, following basic human rights standards. It should be mentioned

that in several cases MoJ and MoH were provided co – financing of the urgent cases that were needed inpatient treatment or surgery operations. But it should be mentioned too that the state officials do not recognize officially that the torture exists in Georgia.

- Several important publications and public awareness campaigns, including PR actions and TV advertisements were provided for aware victims of torture that they can apply to the RCT/EMPATHY for qualified assistance.
- Was set up a multi-disciplinary, treatment system for victims of torture the procedure for treatment was automatically improved. The awareness of torture victims and the number of victims tortured still in Georgia were hopefully bring about a will for Government officials to stop this practice through policy change and pressure on the responsible parties to stop. A Public awareness campaign, including information on program activities, some preventative program activities and the wide advertisement of available services, also made a positive change in improving the general acceptance by the victims themselves (not to be ashamed to seek treatment) of psychological and psychiatric treatment.
- The “Hot line” Service with duty doctor position for immediate reacting and assistance was developed and operated for victims of torture, that is innovation activities and helps not only victims of torture, but presents the important preventive mechanism for prevention of torture in Georgia.
- Despite of furious resistance of MoJ and several prison officials the Branch offices of the RCT/EMPATHY in Penal system – Women Colony Rehabilitation Centre and Juvenile Colony Rehabilitation Centre - still are operating and the crisis intervention and monitoring programmes in Penal System of Georgia are still running as well, that is the great direct support for existing in this system torture victims and as well as presents the strong preventive mechanism for prevention of torture, ill – treatment and inadequate medical care toward to prisoners.
- It should be mentioned that the Branch Office of the RCT/EMPATHY – Partner in Military Conflict Zone in Abkhazia – Gali Crisis Centre - is successfully operating, that is very important support in created new tension situation in this military conflict zone where are great number of new torture and ill – treatment victims.

7. Major developments and challenges encountered during the implementation period (organizational matters, events in the country, etc.):

New Developments:

- ***At the Organizational level***, it should be mentioned that in the framework of the RCT/EMPATHY new activities funded from the EC Micro Grant and IRCT Rausing Trust New Initiatives the following Branch Offices of the RCT/EMPATHY were established and operating up today: 1) Art Studio for Victims of Torture and 2) Crisis intervention Centre inside the Juvenile’s Pre – Trial Prison.

Events and other activities:

Open Discussion

Closing Ceremony, Adoption of the Declaration 2007; Distribution of “Health Care in Prison – International and National Standards, Issues for Monitoring” (Second Edition, RCT/EMPATHY, Georgia).

The specially prepared CD with wide range of specific publications and presentations was distribute in the end of the Conference among participants (This CD is attached).

In the end of the Conference after the discussion the prepared by the RCT/EMPATHY special IV th Declaration “Together against Torture” was presented and signed by the participants, individuals or NGO and professional organizations representatives.

More then 80 persons, representatives of the International Organizations, NGOs and Professional Organizations representatives were participated in this Conference. This Conference was widely announced in the Mass Media (TV Channels and Radio, Newsletters). All partner organizations of the RCT/EMPATHY were organizers and actively were participated in this action.

- The special Roundtable meeting was held in May 11, 2007 in the Court Yard Marriott Hotel. Main thematic area of this Roundtable Meeting was Health Care in Prison – Developing of Networking.

All prison independent public monitoring commissions’ representatives were invited by the PRI and participated in this action (Total N 15 persons); As well as the public Defender and it’s representatives, International organizations’ Representatives, different embassy representatives, Ministry of Justice Monitoring Department and Prison Department Representatives were participated in this meeting, as well as the professional medical organizations representatives from Georgian Medical Association and Georgian Psychiatrists’ Society were participated in this action. Total Number of participants was 47 persons. The Mass – media representatives were attending this meeting too.

Following presentations and discussions were presented during this meeting:

Welcome by lead organisation in EIDHR and UK Embassy torture rehabilitation projects (Maka Jishkariani, RCT/Empathy)

EC contribution to protection of prisoners’ right to health (Alexis Loeber, representative of EC Delegation to Georgia)

UK Embassy contribution to protection of prisoners’ right to health (William Robinson, representative of Embassy of UK to Georgia)

MoJ and MoH activities and plans to guarantee prisoners’ right to equivalent healthcare, including information on the work with ICRC (representative of Penitentiary Department Anton Kelbakiani)

Model Project _ “Programme of Rehabilitation for Torture Victims in Georgia” – Mariam Jishkariani, RCT/EMPATHY, President

Common problems in meeting international standards for healthcare in the Georgian penal system – M. Jishkariani, Levan Labauri, RCT/EMPATHY, GMA

Results of audit of prison commissions by PRI; support for

Commissions under EIDHR torture prevention project (M Murphy, PRI)

Presentations by prison commissions on prisoner healthcare in their institutions: problems, action taken, solutions/plans (members of all 11 commissions).

Guided discussion on opportunities for productive collaboration between Empathy/GMA and the prison commissions, addressing issues of: recruitment of medical specialists to the commissions, medical specialists as consultants to the commissions; opportunities for and limitations to information sharing.

Outcome: practical working relations established between the parties present at the roundtable; network for healthcare in prison widened and strengthened; exploration of the possibilities for practical collaboration on healthcare by Empathy/GMA/Ombudsman and prison monitoring commissions. Follow up measures that were take place after this meeting was the Conference in 26 of June, were the several international guidelines and special publications on international and national standards on health care in prison, including the guideline for monitors, were distributed by the RCT/EMPATHY among prison commission’s members. In the Training – Seminar held by the RCT/EMPATHY on international instruments for the fight against torture, in 29 – 30 of September, 2007 at the Public Defender’s Office, the 11 members from prison monitoring commissions (including the regions) were participated and certified on the field of prevention of torture. All this knowledge they successfully use in their practical work and reporting of prison monitoring results.

8. Type of assistance (tick one or more options), only for the project described in this form:
- a) Medical [^]
 - b) Psychological [^]
 - c) Social [^]
 - d) Legal [^]
 - e) Financial []
 - f) Other, please explain: (Per Diems for Victims from Regions) [^]

9. Explain how the above-mentioned types of assistance were implemented and the activities carried out. (1-2 pages)

Overall monitoring and evaluation programme for the rehabilitation system (Includes Rehabilitation

Centres (Branches – see below and Monitoring – Crisis intervention, Emergency Programme activities)

Assessment of the results of this activity:

For evaluation and monitoring of the Rehabilitation System following mechanisms were set up:

- *Centre standardised documentation (Medical Card, Consultation Forms – For Doctors; for social Workers; for psychologist and Psychotherapists; For Art Therapist, For Lawyers, Referral Forms) created.*
- *Centre Treatment and Rehabilitation Standards created in accordance with international standards for Health Care and Ministry of Health of Georgia guidelines.*
- *Centre Medical License obtained from MoH.*
- *Elaborated methodology in accordance with International Standards (ICD – 10), Istanbul Protocol and other relevant health care guidelines.*
- *Monthly reporting forms;*
- *electronic Data Basa System that includes several items related to the client and to the course of rehabilitation;*
- *Statistical Analysis of Data regarding system;*
- *Rehabilitation Includes client's re – evaluation mechanisms with medical, psychological re – evaluation with standardised Subjective re – evaluation questionnaire.*
- *Following Registration Journals: For Medicines – medicines income and outcome registration and same outcome registration Journal for each Branch; Medicines Ordering Journal for Doctors and Online ordering software for Nurse.*
- *Clients Registration Journal;*
- *Visits and Consultations registration Journals;*
- *Staff registration journal; staff outdoor visiting registration journal;*
- *Social workers and clients per diem (travel from Regions) registration journal;*
- *Income and Outcome Documentation registration Journal (two journals – one related to the patients, one – related to the Organization);*
- *Every morning medical evaluation and reporting meetings Journal for Staff;*
- *Referrals registration Journal;*
- *“Hot Line” – Reporting Journal;*
- *Crisis intervention and monitoring reports;*
- *Discharging Clients registration Journal;*
- *Ongoing Patients registration Journal.*
- *Reporting system for Contractor Health Care, Farm Firm Organizations: Consultations, Investigations and Financial Reports.*
- *Georgian Legislation updating software*
- *Annual statistical reports to MoH and MoJ.*
- *Since 2007 the Crisis intervention form is created and is in use;*
- *Since 2007 First Time Identification form is created as well*
- *Data Basa includes Crisis intervention Cards as well.*

Used Methodology:

Holding of medical and psychological study (diagnostic) program: A) Medical and psychological diagnostic by using the special prepared clinical questionnaires in accordance with ICD – 10: 1. Center "Empathy" questionnaire

"Medical and Psycho - Social Monitoring and Rehabilitation Programme for Victims of Torture", apparently with International clients monitoring program of the IRCT/ICAR /Denmark, Copenhagen/ and "Istanbul Protocol". – clinical/structural Interview method B) Psychological examination by using the following clinical psychological questionnaires: 1. Harvard Trauma Questionnaire. 2. Posttraumatic Stress Disorder Symptoms Questionnaire (for adults - Watson, 1991). 3. Civilian Mississippi Questionnaires (Mollica et al); 4) Shikkhan Anxiety Scale; 5) Buss – Durki Aggressive Scale; 6) MMPI; 7) BDI (Beck Depression Inventory); 8) Hamilton Depression Rate Scale; For Adolescents: Lusher Test and "Hand Test", as well if appropriate PTSD and other relevant scales will be used.

I. Medical and psycho -social rehabilitation for victims of torture and ill - treatment:

A) Psychotherapy

Methods: individual, group, family.

Types: NLP, Methods of Testimony and "eye movement", Analytical psychotherapy, Psycho - synthesis, Existential analysis, Cognitive - Behavioural, Psychodrama and role player psychotherapy etc.

B) Psychological Support: Psycho - correction, Re - socialization, by using Reality Therapy and Behavioural Therapy methods. Psychological consultations for prisons staff and victims family members as well.

C) Art - Therapy - by using of painting and clay modelling methods.

D) Social Therapy: By using the methods of environmental support and case management. Revealing the current problems and needs of the torture victims (prisoners and former prisoners and their family members or other torture victims and their family members). Providing the support for planning and solving their problems, client advocacy and, in cases of necessity, to collaborate with Governmental and Non - Governmental organizations having more specific directions (legal aid or other) for solving the revealed problems. Creating the Self - Supporting groups among torture victims and an active participation of such groups in social rehabilitation process (participating in the movement against torture, client advocacy or other prevention activities etc). Facilitation activities between prison administration or medical authorities and prisoners for conflict resolution and improvement of general situation in the prisons. Activation of the prison staff, especially health professionals and prisoners' rights protection staff in client advocacy activities.

E) Medical consultation - General Doctor's, Psychiatrists, Neurologist, Traumatologists and other needed consultations consultations and treatment and rehabilitation, in cases of necessity providing facilitation activities with Ministry of Justice Health system or Ministry of Health several institutions for sending the patients for more specialized relevant treatment.

F) To provide independent Psycho - Physical expertise – conclusion (record) regarding client's health condition - for Governmental structures (for ex. for Court etc) or non - governmental organizations working in the Human Rights protection sphere, especially for Ombudsman Office. The Independent Medical Records are provided by the multidisciplinary Team of Health Care Specialists in accordance with international standards of torture investigation and documentation (Istanbul Protocol, CPT Recommendations etc).

G) For more specialized service that were not included in the Centre service list the clients were guided in several contracting Medical Service Centres. For comprehensive health care for VT Centre EMPATHY have close collaboration with following Health Care institutions and other contracting authorities :

Contracting Authorities or Services:

1) **Ministry of Justice of Georgia.**

2) **Multiprofile Treatment Centre in Tbilisi** – for more specialized investigations, consultations, treatment and instrumentary Investigations.

3) **National Centre of Therapy.**

4) **National Centre of Urology**

5) **For CT Investigation : TSMU Central Clinic**

6) **For more specialized investigations and inpatient treatment: National Centre of Oncology; National Centre of Gynecology, TSMU Central Clinic and other relevant health care institutions of MoH; Research Institute of Psychiatry;**

7) **Independent Medical Forensic Expertise Centre "Vectori"**

Organigramme of Activities in 2007:

10. In-house training: Training for professionals involved in the implementation of the project. If your organization has carried out this type of activity, please provide the following information:

- a) Training programme: venue, speakers, date, etc.
- b) Knowledge and skills acquired and how they are or will be applied in practice

Training/Educational and Research Activities

1. Research activities: The statistical data analysis was provided on materials of 2006 and the annual Report was published on these materials and distributed among international and national organizations.
2. The International Training – Seminar (Phase 2) was held in May 31 June 2, 2007 in the framework of the IRCT programme on documentation and investigation of cases of torture. The RCT/EMPATHY was local partner (coordinator) organization and members and partners of the RCT/EMPATHY were involved in this training as trainers too. All relevant manuals were prepared by the IRCT and international partners and adopted by the RCT/EMPATHY, as well as the several presentations and manuals were elaborated by the GMA and RCT/EMPATHY and all materials were published and written on the CD. During this training of trainers programme 12 Legal experts and 12 medical doctors were trained and the experts’ panel was established. Participants were from State and NGO representatives, as well as from Ombudsman Office and Forensic Medicine field representatives too.

Materials for manuals:

International (Prepared by the IRCT and partners and adopted by the RCT/EMPATHY and GMA:

- TOT Programme
- Legal Checklist for Effective Documentation and Investigation of Torture and Other Forms of ill Treatment
- Adult Learning
- Training of Trainers. Trainer’s Module Outline (Legal Experts)
- TOT Guidelines for the National Adaptation of the Training of Trainers Legal Module (Legal Experts)
- TOT Trainer’s Guideline (Legal Experts)

Pre – Training Questionnaire (Legal Experts)
 Pre – Training Questionnaire (Medical Experts)
 Evaluation Questionnaires (Daily Evaluation, Sessions Evaluation, Overall Evaluation of the Training)
 How to Investigate Cases of Torture
 Preventing Torture
 TOT Trainer’s Module Outline (Medical Experts)
 TOT Trainer’s Guideline (Medical Experts)
 TOT Guidelines for National Adaptation of the Training of Trainers Medical Module (Medical Experts)
 Medical Checklist / Guide (For Effective Documentation and Investigation of Torture and Other Forms of ill Treatment)

National prepared by the RCT/EMPATHY and GMA:

2 Case studies – prepared by the RCT/EMPATHY for the training that was used during the training as well (Georgian and English version).

Istanbul Protocol – Georgian Translated Version.
 Torture, Outcomes, Treatment and Rehabilitation (RCT/EMPATHY, Georgia)
 Medical Services in Prison (RCT/EMPATHY, Georgia)
 Health Care in Prison – MJ (PPP)
 Common Problems Prison and Forensic Psychiatry in Georgia – MJ (PPP)
 Rights to Health – LL (PPP)
 Forensic Medical Expertise (International and National Practice) –LL (PPP)
 PBL – Problem Based Learning – LL (PPP).

3. **All this materials were used in the additional ToT** training held by the RCT/EMPATHY and GMA at the RCT/EMPATHY office for 13 several specialties doctors from RCT/EMPATHY, GMA and Georgian Psychiatrist’s Society.
4. **In addition**, it should be mentioned that by the IRCT was invited special mission of experts from Kirgistan for training in the RCT/EMPATHY.

The aim of the training was to support in establishment of the Torture Victims Rehabilitation Centre in Kirgistan. The RCT/EMPATHY was provided 3 days training on methodology, organization and capacity building, tactics and strategy of torture victims’ rehabilitation, human resource identification and management. All materials on Russian language were provided from the RCT/EMPATHY to the Colleagues from Central Asia. The Kasagstan Open Society Institute Representative was attending this meeting as well As the result of networking development with Central Asian representatives the RCT/EMPATHY Psychiatrist (Deputy Director) was invited as the international trainer in the Central Asian Regional Seminar – Strategic Litigation on Human Rights on National and International Levels – held in July 20 – 23, 2007 in Almaty, Kazakhstan, where he held several presentations and discussions on Istanbul Protocol and media communication and diplomacy of clients’ advocacy.

It should be mention that following international networking developments were conducted during the year 2007L the Project Director was participated as the representative from Georgian Medical association in the General Assembly of the World Medical Association, Held in Copenhagen in October 2007, where the new resolution on prevention of torture was adopted. Training Programme Coordinator from GMA visited the European Doctors’ Standing Committee in Brussels and develops relations for accreditation of the Training Programme according to the European Educational Standards.

11. Staff required ONLY for this project..

Changes: 1 Psychiatrists (1 Since October, 1 2007), Data Basa Secretary was removed on position of the Financial Manager (Since October 1, 2007); Former Financial manager was change according to her application; On position of the Data Basa Secretary was appointed Mrs. Rusudan Elashvili – since October 1, 2007. From GMA (partner organization) 1 expert is acting in both part time positions. All changes were made according to their applications.

III. Information on the victims of torture assisted by this project

13.Total number of victims assisted under this project: **__1049 (Among them Direct Victims of Torture 419 persons).**

a) Of this number, please indicate:

- Number of newly registered victims: **__305__**

- Number of on-going victims being assisted: **__114__**

Total Number of the Clients applied to the Centre - Total N = 1049

Direct Beneficiaries – Victims of Torture and Ill Treatment in accordance with UN Convention against Torture Article 1 were Total N = 419 persons;

Indirect Beneficiaries (family members, lawyers, community members) TN = 630

Direct - 419

Long Term MDT Rehabilitation - New Clients Total N = 179 + from year 2006 114 = 293

Short Term Rehabilitation, crisis intervention and emergency care – T N = 126

Direct beneficiaries of the Centre N = 419 (among them 114 patients continuing treatment from year 2006) and new patients of the Centre T N = 305.

Among them:

- From Military Conflict zone in Abkhazia Gali and Surrounding areas were - 131 persons;
- Prisoners being inside Penal system in Georgia were – 231 persons.
- IDPs from Abkhazia and South Osetia - 11 persons
- Refugee from Chechnya – 11 persons
- Asylum Seeker from Uzbekistan – 2 person
- Asylum Seeker from Shri-Lanka – 1 person
- Former Prisoner – 13 persons
- Police Torture Victims that was not imprisoned – 7 person inhabitants from Martkopi Orphans house – 5 persons + 2 persons.
- Others (12 persons) - one 7 years child victim of sexual violence and one patient with mental problem with torture experience in psychiatry hospital, 1 State Repression Victims 1992 – 1993 during the Civil War in Georgia, 8 persons victims of violence during the attack on the Demonstration in November 7, 2007. 1 young man from family with Stalin regime repressions.

Citizenship - 2 Asylum Seeker from Uzbekistan, 1 Asylum Seeker from Shri-Lanka

11 Persons – Refugee Statute – Former Russian Citizens; Refugees from Chechnya;

Others were Georgian Citizens;

Nationalities (Ethnical tenancy) (Among new clients in year 2007 TN = 305)
